

## CAIXA ECONÓMICA MONTEPIO GERAL CONSOLIDATED RESULTS

**AS AT 31 DECEMBER 2015** 

Lisbon, 18 March 2016

#### **HIGHLIGHTS**

#### **CAPITAL**

#### Solvency Reinforcement

- This upgrade reflects the successful outcome in managing the capital base of the bank through a fruitful combination effort to deleverage from rich assets while increasing the core capital base. During 2015 namely throughout the second half of the year the total Risk Weighted Assets (RWA) dropped by EUR 1.143 million (-7.6%) and the Own Funds increased by EUR 51.1 million.
- In 2016, reinforcement of CEMG's own funds through a capital increase. Taking into account this new capital level the CET1 ratio<sup>1</sup>, as at December 2015, would have reached 10.9%.
- Improvement of the CRDIV/CRR Leverage ratio<sup>1</sup> reaching 5.73% against 5.60% at the end of 2014.

#### **EARNINGS**

#### Resilience of the recurring net income

- Significant drop of Provisions and Impairments losses by 44.1% (EUR -285.0 million).
- Moderate reduction in the Commercial Net Interest Income of EUR 10.7 million (-4.5%) hampered by the decrease of the housing loans portfolio reference interest rates.
- Net Interest Income negatively affected by the sovereign debt securities portfolio (EUR -50.0 million).
- Results from Financial Operations amounted to EUR 138.7 million, negatively affected by the lower contribution from Portuguese sovereign debt (EUR -279.0 million).
- **Control over Operating Expenses** in the domestic activity (+1.6%).
- Net Income of EUR -243.4 million, undermined by the aforementioned smaller contribution of the public debt securities portfolio (EUR -329.0 million).

#### **RATING**

# Overall improvement of the rating grades

Upgrade of CEMG's ratings as well as of the securities originated by CEMG.

- Moody's upgraded the rating of CEMG's senior unsecured debt to 'B1', in June 2015.
- Moody's upgraded the rating of CEMG's Covered Bonds to 'Baa1', thus reaching the Investment Grade level, in June 2015.
- In the second half of 2015, **Standard & Poor's Ratings Services** affirmed the Investment Grade level of Pelican Mortgages No.2 and Aqua Mortgage No.1 securitization transactions, confirming the high quality of the Residential Mortgage Backed Securities where CEMG acts as originator.
- In January 2016, **Fitch Ratings** also raised the rating of CEMG's Covered Bonds to Investment Grade, assigning them 'BBB-' level.

#### **CAPITAL**

Caixa Económica Montepio Geral (CEMG) responded favorably to the demanding challenges it was faced with in 2015, namely by focusing on its commercial dynamics which allowed it to regain customers' deposits growth along with the putting in place of strategic measures which lead to risk mitigation and to a smaller capital consumption, thus shoring up the soundness and solvency of its balance sheet.

Therefore, the reinforcement of EUR 51.1 million in Own Funds, coupled with the reduction of EUR 1.143 million in the Risk Weighted Assets (-7.6%), stemming from the management of risk allocation in the credit and debt securities portfolios, translated into the improvement of the phasing-in Common Equity Tier 1 and Total Capital ratios, from 8.51% to 8.82% and from 8.67% to 9.74%, standing in both cases above the minimum required levels by 182bp and 174bp, respectively.

At the end of 2015, the phasing-in CRD IV/CRR Leverage ratio, stood at 5.73%, against 5.60%, on 31 December 2014.

Basileia III - CRD IV/CRR	2015	2014	Chg.
Total Capital	1,360	1,309	+3.9 %
Eligible instruments to CET1	1,890	1,682	+12.4 %
Common Equity Tier 1 Capital	1,231	1,285	-4.2 %
Tier I Capital	1,231	1,285	-4.2 %
Tier II Capital	137	33	>100 %
Risk Weighted Assets and equivalents	13,962	15,105	-7.6 %
Capital ratios (phasing-in)			
Common Equity Tier 1	8.82%	8.51%	+31 bp
Tier 1	8.82%	8.51%	+31 bp
Total Capital	9.74%	8.67%	+107 bp
Leverage Ratio (Phasing In)	5.73%	5.60%	+13 bp

This positive trend will be reinforced in the current quarter through an increase of the institutional capital (core capital), which would allow, as at December 2015, the Common Equity Tier 1 and the Total Capital ratios to stand at 10.9% and 11.9%, respectively.

#### **LIQUIDITY**

Total Net Assets reached EUR 21,145.2 million, a 5.9% decline against 31 December 2014, mainly due to the reduction of the credit portfolio, as a consequence of subdued demand, in a backdrop marked by the slow recovery of the Portuguese economy and the adoption of a more stringent underwriting criteria, coupled with the reduction of the securities portfolio.

At the end of 2015, Customers' Deposits remained as the main source of funding of the activity, representing 61.3% of total funding sources. In the last quarter of 2015, one should highlight the resurgence of Customer's Deposits (+3.3%), with a particular emphasis in the taking of term deposits and savings deposits which went up by 5.1%.

Still in 2015, a CEMG redeemed EUR 628.2 million of outstanding debt securities and reduced by 9.4% (to EUR 2,262.3 million) the reliance on the European Central Bank (ECB) against 2014 and -34,0% against 2013 (i.e., EUR -1,133 million).

The Liquidity Coverage Ratio (LCR) reached 111.4%, above the 60% minimum required level in place on 31 December 2015. Emphasis should also be put in the maintenance of the equilibrium of commercial balance sheet with the loans to deposits ratio, factoring in total credit and customers' resources, standing comfortably at 97.7%, against 92.5% in 2014.

#### **ASSET QUALITY**

On an annual basis, Gross Loans to Customers decreased by 4.0%, to EUR 15,944.0 million, mainly arising from the performance of the domestic activity (-4.1%), as a result of the demanding repricing policy coupled with the management of credit risk. The annual performance of the credit portfolio is mainly a reflection of the still decreasing trend in housing loans (-4.5%), a reduction in the construction segment (-26.7%), the decrease in the credit granted to the Third Sector of the economy (-4.2%) and to the stability of the credit granted to companies excluding construction (-1.0%). The domestic activity stands for 98% of the total gross loans portfolio, entailing a reduced exposure to the African market.

During 2015, there was a 17.3% year-on-year decrease in the number of new retail Non-Performing Loans (NPL<sup>2</sup>). Credit quality is being hampered by the Top20 Credit-at-Risk (CaR) which, nonetheless, has a wide coverage ratio by impairments and related collateral reaching 118.1%. Excluding the negative contribution of these set of customers a favorable trend in Credit-at-Risk would have been registered (EUR -500.000).

Therefore, the trend of the Top 20 CaR, coupled with the still very difficult condition of both households and companies, hampered the trend of the credit-at-risk ratio which stood at 14.3%, whereas the credit more than 90 days overdue ratio stood at 7.73%. Nevertheless, one should emphasize the stability of the coverage of total credit-at-risk at 56.1%, against 69.4% in 2014. Taking into account the related real estate collateral, this coverage ratio increases to 126.9% (136.5%, in 2014).

#### **EARNINGS**

Net Income at the end of 2015 was EUR -243.4 million, affected by the lower contribution of results arising from the sale of Portuguese public debt (EUR -329.0 million) and by the reduction of impairments of EUR 285.0 million (-44.1%).

Net Interest Income stood at EUR 227.5 million, against EUR 336.5 million in 2014, heavily affected by the EUR 50.0 million year-on-year reduction in the contribution from the public debt securities portfolio, as a result of the lower yields and the sale of these assets in 2014. Net Interest Income for 2015 was further hampered by the decrease in the volume of the credit portfolio and by the behavior of Euribor rates standing at historically minimum levels.

The Results from Financial Operations totaled EUR 138.7 million, against EUR 352.2 million in 2014. This trend was determined by the smaller contribution of the sale of Portuguese public debt securities which reached EUR 364.2 million in 2014, against EUR 85.2 million in 2015, implying a decrease of EUR 279.0 million. It is worth noting that, excluding the impact of the sale of the said securities, the Results from Financial Operations had an annual growth of EUR 65.6 million.

Therefore, the contribution of the Portuguese public debt portfolio in 2014 affected significantly the Net Banking Income in 2015, which stood at EUR 455.5 million, against EUR 784.5 million in 2014. Excluding this contribution, which entailed an annual change of EUR -329.0 million, Net Banking Income was stable in comparison to 2014.

As far as the Operating Expenses are concerned, there was a restraint of the level of domestic activity (1.6%) which, coupled with the increase observed in the international activity, resulted in a global increase of 5.2%. Nevertheless, considering that the acquisition of Banco Terra, S.A. occurred only in December 2014, the consolidated Operating Costs, on a comparable basis, increased by only 2.6%.

Total impairment flow decreased by 44.1% on an year-on-year basis, with the cost of credit risk diminishing to 1.59%, against 3.14% observed at the end of 2014, resulting from the reduction of the respective impairment, which decreased 50.7%, on an year-on-year basis. In the domestic market that reduction reached 52.5%.

In what concerns the international activity of CEMG's Group, Banco MG Cabo Verde, Sociedade Unipessoal, S.A. posted a net income of EUR 1.2 million, against EUR 0.2 million in 2014, benefiting from the increase of EUR 0.9 million in net banking income, underpinned by the 20.6% growth in net interest income, and by the 12.5% reduction in operating expenses.

The activity in Angola, carried out by Finibanco Angola, S.A., attained a positive net income of EUR 9.1 million, against EUR 12.8 million in 2014. This trend was marked by the contribution of 1.3% of net

<sup>&</sup>lt;sup>2</sup> Overdue loans by more than 90 days and falling due.

banking income, boosted by the 3.9% increase in net interest income, which, nevertheless, was not enough to offset the 21.0% growth in operating expenses and the 9.6% increase of loan impairments.

Banco Terra, S.A., operating in Mozambique, posted a net income of MZN 3.1 million, which represents a contribution of EUR 0.1 million by end-2015.

#### **RATING**

During 2015, the favorable trend in a set of key indicators, translated into the improvement of Caixa Económica Montepio Geral's rating grades: i) Moody's upgraded the Long-Term rating, from 'B2' to 'B1', and improved the Outlook to 'Stable', ii) Fitch Ratings affirmed the Viability Rating of 'B+' and improved the Outlook to 'Stable', and iii) DBRS also affirmed the Intrinsic Assessment of 'BB(high)', while keeping the respective Outlook.

As far as the rating of CEMG's outstanding covered bonds is concerned, emphasis should be put in the 3-notch upgrade by Moody's, from 'Ba1' to 'Baa1' and the 1-notch upgrade by Fitch, to 'BBB-' moving the securities into the Investment Grade category.

Currently, CEMG is updating its Covered Bond programme to include a Conditional Pass-Through (CPT) mechanism.

Still in 2015, Standard & Poor's Rating Services assigned a 'A+(sf)' rating to the class A notes of both *Pelican Mortgages No.2* and *Aqua Mortgage No.1* securitization transactions, affirming the high quality of the Residential Mortgage Backed Securities where CEMG acts as originator.

#### **MOST SIGNIFICANT EVENTS IN 2015**

#### **CEMG's new corporate bodies**

Following the approval of the revision of CEMG's Articles of Association, in the General Meeting held on 26 May 2015, the new corporate bodies were elected on 5 August 2015. The new Executive Board of Directors, headed by Mr. José Morgado, took office on 7 August 2015.

#### **New legal framework for the Savings Banks**

On 10 September 2015, the Decree-Law no. 190/2015 was published, which divides the savings banks in two groups, according to the volume of their assets, into "annexed savings banks" and "banking savings banks", with CEMG falling in the latter group.

This Decree-Law determines the equivalence of the banking savings banks to banks and that, as such, they can perform all the legal activities carried out by the latter. Therefore, this Document opens very positive prospects for the development of CEMG's activities, granting it a flexibility and an access to market instruments that were previously not available to it, given its legal nature, but which were, nevertheless, available to its competitors.

### Approval of the Strategic Plan 2016-2018 by CEMG's General Meeting held on 30 December 2015

The Extraordinary General Meeting held on 30 December 2015 approved the Strategic Plan and the Action and Budget Programme for 2016, as well as the criteria set for the sale of financial holdings within the Group.
